Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

Allowance

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The known prior art does not fairly suggest the ultrasound system and method of claims 1 and 17. Claims 1 teaches having a third subset of the plurality of transducer elements, that is displaced by more than one transducer element from the second subset, and for producing a third ultrasound beam and wherein the second subset is the only subset of the plurality of transducers element operative between a time the first subset is operative and a time the third subset is operative. Claims 17 teaches a means for having a third ultrasound beam overlapping with the second ultrasound beam by less than eighty seven percent of the width of the second ultrasound beam. Imran et al., teaches a means for ultrasound imaging using a plurality of transducer elements (claims 1-5) but does not teach having a third subset of the plurality of transducer elements, that is displaced by more than one transducer element from the second subset, and for producing a third ultrasound beam and wherein the second subset is the only subset of the plurality of transducers element operative between a time the first subset is operative and a time the third subset is operative. Chiao et al., teaches using a plurality of subset transducer elements (figure 1-3 and claims 1-4) but does not teach having a third subset of the plurality of transducer elements, that is displaced by more than one transducer element from the second subset, and for producing a third ultrasound beam and wherein the second subset is the only subset of the plurality of transducers element

operative between a t time the first subset is operative and a time the third subset is operative.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
